

December 2016

Dear Parents,

I am pleased to inform you that the team of inspectors from Penta International who visited our school in October have published their report. I have placed a link to the report on our website, and provide you with a link here:

<https://www.slc.gr/entire-school/inspection-reports>

I am satisfied with the findings of the inspectors. In my view, the report accurately identifies what the school does well and where we can improve further. The report is more than a snapshot assessment of our school as it stands today, in that it recognises the changes that have been implemented as we have worked to enhance the school's ability to deliver the best British educational environment it can. The report acknowledges the efforts of the school to be always seeking to improve itself and it truly captures the spirit of our school. Most importantly the report gives valuable advice as to how we can further enhance the performance of St. Lawrence College. In that sense the report serves a purpose as it gives us direction for our future development and growth.

I hope you will enjoy reading the report and I welcome your comments and feedback.

Sincerely,

Phil Holden
Headmaster
